

*Les cotillons
en flocons*

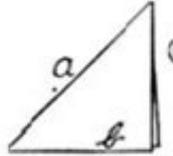

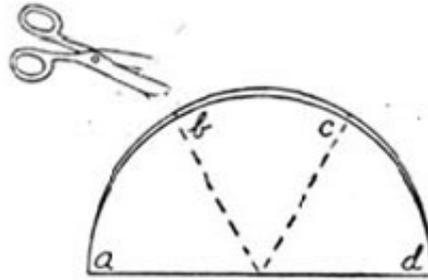

Les gabarits pour imaginer vos flocons

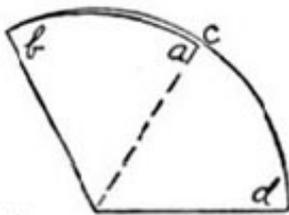

1. Découper une feuille de papier en carré

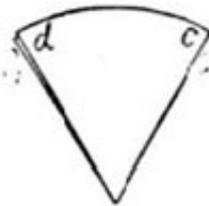

2. Plier le carré en en suivant la diagonale

3. Découper la feuille de papier en demi-cercle

4. Plier la feuille pour que la pointe a se retrouve sur la pointe c.

5. Plier la feuille pour que la pointe d se retrouve sur la pointe b.

6. Dessiner une forme comme pour les modèles

7. Couper la feuille en suivant le dessin

8. Dépliez la feuille et découvrez le flocon
